ICD-SX700D: includes Dragon NaturallySpeaking® v10 R.E., voice to print software *(SOICDSX700D)* **168.95**

SONY

ICD-MX20 • ICD-MX20DR9

With the option of using the built-in 32MB flash memory, or utilizing Memory Stick Duo or Pro Duo media cards, the ICD-MX20 provides virtually unlimited capacity. This is especially important if you're at a long conference, and don't have time to download your files to a computer. Just put in a new Memory Stick Pro Duo media card, and keep recording. Each card can hold over 300 personalized folders, which makes organizing your audio a simple process. Otherwise the same, the ICD-MX20DR9 comes bundled with Dragon® NaturallySpeaking® Preferred Voice to Print Software to easily convert your audio files to text.

- Hybrid 32MB Flash/Memory Stick PRO Duo Slot allows you to record dictation on built-in memory or high capacity (up to 512MB) Memory Stick cards.
- High-speed USB 2.0 download to PC
- Dictation correction function lets you correct your notes
- Listen to the recording level by using headphones while the unit is recording and adjust accordingly.
- STLP mode lets you record up to 2¾ hours (on 32MB flash memory) while maintaining 2-channel recording.
- VOR (voice operated recording) –starts and stops recording automatically. Plus, you won't miss a single syllable thanks to the digital buffer.
- Organize over 300 message folders on a Memory Stick by type, such as Sales Letters, Customer Service Replies, Memos, Action Items, Personal, etc.
- Built-in stereo and directional microphones eliminate the need for an external microphone for convenience and ease of use. (Still offers an external mic input).

ICD-MX20 *(B&H# SOICDMX20)*..... **194.95**

ICD-MX20DR9 *(B&H# SOICDMX20DR9)* **236.79**

ICD-BM1B

Featuring up to 46 hours recording time with supplied 128MB Memory Stick media, the ICD-BM1B is ideal for professionals, students or anyone on the go. Organize and edit recordings in 340 folders, then use the supplied digital voice editor software to send audible e-mails with an attached file. Comes equipped with a built-in speaker, hold button, date display, battery level indicator, alarm and digital clock. Seeing data and listening to audio is easy with the large LCD display for showing recording data and 350mW speaker output.

- Slide switch allows for one-button operation of all major functions
- High-speed USB 2.0 download to PC
- Digital pitch control
- Selectable microphone sensitivity
- Compatible with Dragon NaturallySpeaking software
- Overwrite (correction) function and voice operated recording

ICD-BM1B *(B&H# SOICDBM1B)* **299.00**

PHILIPS

ARCHOS

ARCHOS 5 Internet Tablet

Enjoy continuous and instant access to the internet, media and TV—plus t he ANDROID operating system. In perpetual evolution with the continuous arrival of new applications, you can personalize the ARCHOS 5 Internet Tablet by downloading the applications you want from the AppsLib store. There is also a selection of pre-installed applications. Built-in 802.11 b/g/n lets you surf the Web on the go without having to zoom in and out—web pages are displayed in full width just like on a PC (with Wi-Fi or the 3.5G mobile phone) and stay in contact by using the full integrated Email and contacts applications. Play HD videos and view photos on the incredibly sharp 5" touchscreen. Watch Digital TV or record it directly or set up a scheduled recording with the optional DVR Station—and watch anytime and anywhere you want— or watch on a large-screen HDTV via the the optional HDMI Mini Dock.

- Quick and responsive Internet browsing just like on your laptop. No more endless waiting for the page to be loaded.
- Access nearly 1,000 Web TV channels, over 10,000 Web radio stations and 100,000 podcasts in less than 3 clicks.
- High-resolution (800 pixels wide) 5" screen delivers the finest image available on a portable device.
- Able to handle widest range of video formats even at HD 720p resolution (H.264 HD, MPEG-4 HD, WMV HD6).
- Customize it by putting your favorite applications in the extended screen and moving them to the window of your choice simply by dragging it with your finger.
- Browse through photos with a simple flick of the finger or play a slideshow of your last vacation, with transition and music effects.
- Use your in portrait or landscape mode by simply tilting the device thanks to the accelerometer.
- Download your entire CD collection and create playlists without using a PC. Album artwork covers bring your music to life.
- Transfer files quickly and easily via the USB 2.0 connection to a PC (can be used as a portable hard drive).
- Built-in GPS with voice assistance, Points Of Interest, multiple-route calculations, car, pedestrian and adventure mode based on the latest maps from Tele Atlas™ with 3 landmarks in 3D.

Archos 5: Available in flash memory configurations (with a micro SD/SDHC card slot to increase the capacity) or in a hard drive version.

COWON

O2 Portable Multimedia Player

Compact for maximum portability but packed with features, the O2 comes with T-DMB receiver, electronic dictionary, and can playback DivX, XviD, MPEG4, WM9, H .264 video files and WMA, MP3, AC3, AAC, FLAC, OGG audio files. It features a 4.3" touch-screen display, SD cards slot, and comes with 16GB or 32GB of storage capacity.

- Davinci chipset handles various codecs so you can spend more time enjoying your media instead of decoding it.
- With 10-band EQ, BBE (refines sound quality), Mach3Bass (provides deeper, tighter more musically accurate bass), MP Enhance (restores and enhances the harmonics lost through compression), and 3D surround (provides three-dimensional surround sound effect), Cowon's JetEffect brings compressed music to life.
- Share your favorite JPEG, GIF, PNG, TIF, BMP, and even RAW images on the go.
- Besides watching videos on the vibrant 4.3" screen, it has a composite output for connection to a TV.
- Text viewer lets you view nearly any text file, and you can add support for pdf, Microsoft Word, PowerPoint and Excel files. Adjust font size, character spacing, color and properties to your preference.
- Rechargeable battery can power the O2 for up to 18 hours of audio or 8 hours of video playback.
- Take notes with the note pad feature or take voice memos with the built-in microphone

16GB: Available in Red *(SONWZS545RED)* or Black *(SONWZS545BLK)*.....**129.95**

X-Series Walkman Video MP3 Players

With a stunning 3" wide OLED touch-screen display, digital noise cancellation and wireless connectivity, the X-Series takes portability to the next level. Equipped with built-in Wi-Fi, you can connect to the internet and access your favorite websites. You can also subscribe and receive podcasts directly.

S-Master digital amplifier and Digital Sound Enhancement Engine (DSEE) fill in the high tones that are lost during file compression, enhance bass and minimize distortion. A unique digital noise canceling (DNC) software engine blocks ambient noise, while providing a high-quality audio experience. Travelers can turn on the noise canceling feature and get peace and quiet even without listening to music. As an added bonus, they come with 100 free music downloads from Sony Music.

- 3" OLED display delivers a picture with extremely high contrast, exceptional color reproduction and a rapid response time.
- A wide 180° viewing angle gives consistent tone and stable contrast, as well as a wide range of color reproduction and a high contrast ratio.
- Utilizes both touch panel operation and a hybrid button system to improve upon the navigation experience.
- Supports multiple high-quality video formats including AVC (H.264/AVC), MPEG-4 and WMV giving you more freedom to download the kinds of video that you want.
- Included 13.5mm EX headphones deliver premium noise cancellation, along with balanced and rich sound.
- Long-lasting battery lets you listen to music for up to 33 hours or watch 9 hours of video before you need to recharge.

SAMSUNG

U5 2GB MP3 Player

Small and lightweight, the built-in USB makes downloading files easy and 2 GB gives you enough space for 500 songs. Want more music? Has built-in FM tuner.

- Simply slide out the USB and you're ready to connect to a PC or audio system without the hassles of wires.
- FM and voice recording, perfect for future listening and capturing personal notes, lectures, and meetings.
- Measures just 4 x 2.6 x 1.5" (H x W x D) and weighs under 2 oz.

Available in Blue *(SAU52BL)*, Red *(SAU52R)*, White *(SAU52W)* and Black *(SAU52B)* **39.00**

S3 4GB Portable Media Player

Listen to your favorite tunes or watch crystal-clear videos on the 1.8" LCD display. Available in five cool colors, the YP-S3 plays audio, video and displays still pictures, and text. It also comes with 4GB of memory and DNSe sound engine for a superior surround sound experience.

- Touch sensitive LED control pad lights up when in use and dims after inactivity.
- FM tuner/recorder scans entire FM range in 60 seconds; places available stations into presets.
- Also offers five games, a world clock and an alarm

Available in Black *(SAS34B)*, Red *(SAS34R)*, Blue *(SAS34BL)*, Green *(SAS34G)* and White *(SAS34W)*.....**79.00**

Q2 16GB MP3 Player

Light-up touch-pad controls let you intuitively navigate through the menus on the 2.4" LCD. 16GB internal flash memory lets you store up to 4,000 songs. It is also an FM tuner, photo and text viewer, voice recorder and more. Enjoy up to 50 hours of audio playback and up to 4 hours of video on a single battery charge.

- 2.4" LCD display shows video, images and text files as well as a mood interpretation of your music.
- DNSe engine brings compressed MP3 files back to life by reproducing the stereo sound your music was originally recorded in.
- Connect to either a Mac (UMS) or Windows (MTP) system, and choose between jukebox or drag-and-drop transfer modes.
- Supports MP3, Flac, OGG, WMA audio, MPEG4 and WMV video

In Black *(SAQ216B)*, Blue *(SAQ216BL)* & White *(SAQ216W)* **119.00**

P3 Widescreen Portable Multimedia Player

Just 0.39" thin, the P3 squeezes a 3" scratch resistant full 16:9 LCD touchscreen, video (also supports DIVX) and audio player, photo album, FM radio/recorder, voice recorder, and a portable storage drive in one compact device. Can also be paired with a Bluetooth enabled phone using the mic to answer calls through the player.

- With true haptic feedback, the P3 reacts with a variety of physical sensations to every gesture for a more intimate experience.
- Music Hot Touch Key to instantly access favorite music features and selections without needing to cycle through multiple menus.
- Samsung's DNSe 3.0 sound enhancement technology ensures listeners experience the most natural, full-bodied sound possible.
- Zoom, rotate or create a slide show with your photos. For text, you can scroll, adjust font size, or let it do the reading for you.

iPod shuffle The World's Smallest Digital Music Player

The new iPod shuffle is so small, it doesn't have room for a screen, controls or even buttons. To create the world's smallest music player (1.8" tall x 0.3" thin), Apple moved the controls to the earbud cord. This makes the new iPod shuffle dramatically smaller and easier to use, with the controls located where you can access them quickly. And even though it is smaller than a "AA" battery, it packs 2GB or 4GB of memory to hold 500 or 1000 songs.

- With the press of a button, the VoiceOver feature tells you what song is playing and who's performing it. It can even tell you the names of your playlists, giving you a new way to navigate your music.
- The shuffle switch has three positions. Flip it to the left, and your music shuffles for a "whatever happens, happens" flow. Flip it to the middle, and your songs play in order. Or flip to the right to turn it off.
- The stainless steel iPod shuffle clip attaches securely to your shirt, jacket, workout gear, or even your backpack.
- An optional anodized aluminum case — available in silver or black — makes iPod shuffle a wardrobe essential.

ALESIS Jam Dock

Jam along with your iPod! JamDock is the cleanest way to integrate your iPod into your practice or live music setup. You can connect and mix in nearly any instrument including electronic drums and send your mix to the stereo outputs and headphone output. JamDock is the first dock for iPod that was designed specifically for musicians. Nearly every musician has an iPod, but until JamDock, there has never been an easy and clean way to integrate your iPod into your practice or stage setup.
JamDock enables you to mix your iPod and your instrument and practice with headphones, amp, or PA system. You can also use your iPod to play backing tracks live. JamDock has two 1/4" inputs that work with both line-level sources and high-impedance guitars and basses. The inputs sum to mono when there is only one side present, so you'll hear your guitar on both sides of your headphones. A pair of 1/4" outputs feed your amplifier or PA system, and a 1/4" stereo output feeds your headphones.

Jam Dock *(B&H# ALJD)*.....**99.95**

ZEISS
Cinemizer Plus Head Mounted Video and 3D-video Eyewear

The Cinemizer combines high-resolution LCD screens with individual diopter focus adjustment (-3.5 to +3.5D). This means even if the user wears glasses the screen image can be focussed for crystal-clear viewing. The resulting image is optically tuned to appear as virtual 45-inch screen, as viewed from six feet away.

- Ability to override the built in headphones and plug in third party models. This means that users that have high-end audio equipment can use them with the Cinemizer plus.
- 3D mode enables stereoscopic viewing of 3D content. Content that is produced in side-by-side 3D format can be displayed from any video source, then the views are split for left and right screens. The resulting experience is a rich and immersive 3D image.
- The Cinemizer is "Made for iPod" which means it is designed specifically to work with all iPods that have video. The Cinemizer also works with both the original and the 3G iPhone.

Cinemizer Plus *(B&H# ZECPVGB)* **449.00**

Zacuto Zgrip iPhone PRO

The Zgrip iPhone PRO is an effective solution for capturing smooth and stable professional quality video with your iPhone 3GS. The system's space-age design resembles a robotic arm that holds your iPhone securely with its adjustable, quick release handgrip. The grip fully articulates and features levers that allow for minute adjustments to help you get exactly the shot you want from any angle.
To use the Zgrip, simply place your iPhone into the cradle, snap the cradle onto the grip, and begin shooting. Capture previously unattainable smooth and steady video. Includes lifetime warranty.

B&H# ZAZZGIP **280.00**

mophie Juice Pack Air

The Mophie Juice Pack air extends your iPhone's 3G & 3G S battery life and protect your investment at the same time. It provides you with up to an extra 4.5 hours of talk and Internet time, up to 27 hours of audio playback and up to 9 hours of video playback. The juice pack air is designed to drain first, so once it runs out of power, your iPhone's battery will still be charged and ready to keep going. And, with access to all ports and features, such as the built-in camera lens, you can leave your iPhone in this stylish case at all times, even when you're not using the battery.

ALTEC LANSING® inMotion iM310
Portable Sound System

This universal dock recharges your iPod, has big, deep-bass speakers and folds down to 11.4" wide, 2.5" deep, and 6.1" high for convenient mobility. AC powered, or you can play for 48 hours on just 3 AA batteries. Weighs just over 2 pounds.

inMotion iM310 *(B&H# ALIM310)*.....**57.95**

ALTEC LANSING® M812 octiv AIR
Wireless Speaker System for iPod

Get brilliant sound for your iPod from up to 100' away. Put your music on a wall, a table, anywhere at all, and control it using the supplied remote. Two responsive, 4" woofers and 1" silk dome tweeters, along with a 80 watts of digital power, drive the octiv Air's clear, powerful sound. Add another speaker to double the power and separate the left and right channels. Or you can "unwire" your music listening experience by adding up to 7 optional wireless speakers throughout your home.
